IELTS CSS 3D Google TTS Interactive

DynamOS — Cognitive Operating System

rkrk.io/dynamos

Learning framework for the AI era. R.U.A. Method (Recognize, Understand, Apply) + BEEF goal decomposition + 3C deep comprehension + GAP deliberate practice. Embedded into every tool and course built at Kee's Language Lab. Presented at TEDxWangjiangSt 2026.

Framework Meta-Cognition RUA EdTech

"We need to stop treating AI like a cheating device, and start treating it like a cognitive exoskeleton."

SPEAKING & THOUGHT LEADERSHIP

MAY 2026

TEDxWangjiangSt — "Bridge the Gap: Escaping the Information Cocoon with AI"

Chengdu, China

Introduced the R.U.A. Method and DynamOS framework. Argued that learning is shifting from content acquisition to learning how to learn — and that human educators must evolve from content providers to Learning Architects. The entire talk was co-architected with an AI assistant as a proof-of-concept.

EDUCATION

2010 – 2014

Bachelor in Information Management & System

Southwest University for Nationalities · Chengdu, China

2017

CertTESOL — Trinity College London

Certified language trainer for adults.
