

IELTS with Kee - Apr 27

 考点线索 (Cues)	 笔记与纪要全解析 (Notes)
澄清与互动 (Clarification)	 课堂内容还原 (Class Content) - 遇到没听清或不理解的问题时，不要生硬地请求时间，要自然地要求考官重复或解释。 - 称呼考官时，一般可称呼 sir/madam。注意 madam 口语常弱读为 ma'am (发音比 mom 略长)。如果考官较年轻，称呼 madam 会显老，建议记住其 First Name (如 John) 直接称呼。  必备语块 (B2 Chunks) Could you say that one more time? - 能再重复一遍吗？ ⇒ 例：Sorry, I didn't catch that. Could you say that one more time? Would you mind repeating the question? - 您介意重复一下问题吗？ ⇒ 例：It's a bit noisy outside, would you mind repeating the question? Could you please explain by [X] what you mean? - 您能解释一下您说的[X]是什么意思吗？ ⇒ 例：Could you please explain by "dreams" what you mean? Like normal dreams at night or my ambitions?  精髓解释 (Insight) 听不懂很正常，礼貌地让考官换个说法 (put it in another way) 或解释词义，比你瞎猜乱答要好得多。
拖延与重组 (Stalling & Reorganize)	 课堂内容还原 - 遇到难题 (尤其是 Part 3 开放式问题)，不要立刻陷入长时间的沉默或只说“给我几秒钟”。 - 科学的拖延法是“评价问题 (Comment) + 给出原因 (Reason)”。 - 当说话语无伦次需要重新组织语言时，使用“重组语块 (Reorganize the way you speak)”来自然过渡，这能体现你对语言的驾驭能力。  救命拖延词 (Stalling) That's an interesting question, cuz you know... - 评价问题并顺势引出原因。

⇒ 例：That's an interesting question, cuz you know there are lots of things I like about my school.

- Off the top of my head... - 我脑海中第一反应是...

⇒ 例：Off the top of my head, I'd say yes, absolutely.

- The first thing popped/sprang to my mind is... - 我脑海里蹦出的第一件事是...

⇒ 例：The first thing popped into my mind is that cartoon is a good way to relax.

- I gotta admit this has never crossed my mind before. - 坦白说我以前从来没想到过这个问题（极致拖延）。

⇒ 例：Well, gotta admit this has never crossed my mind before. So please allow me a few seconds to gather my thoughts.

- Well... how should I put it... what I mean is... - 我该怎么表达呢...我的意思是...（用于思维卡壳需要重组语言时）

⇒ 例：Well, how should I put it... what I mean is that these places are not very friendly.

💡 精髓解释

拖延不是单纯的发呆，而是用一堆看似高级、实则没有实际信息的套话，给自己争取在脑子里构思真正答案的时间。

喜恶与感受 (Likes & Dislikes)

🧠 课堂内容还原

- 告别干瘪的 "I like" 和 "relaxing"。描述放松要形成肌肉记忆，多角度同义替换。
- 描述喜好时，从简单的 "quite into" 升级到 "avid fan" 或者 "obsessed with" 以体现程度深浅。
- 描述厌恶不要只用 "don't like"，尝试用 "I wouldn't say..." 这种委婉的宾语从句结构。
- ⚠️ 注意：形容词结尾的 **-ing** (annoying) 修饰事物，**-ed** (annoyed) 修饰人的感受。

✖️ 必备语块

- wind down / let my hair down / unwind - 放松自我

⇒ 例：Watching cartoons is a good way to wind down and let my hair down.

- **boost our mood / reduce stress** - 提升情绪/减轻压力

⇒ 例：Exercising can help us reduce stress and boost our mood.

- **an avid/huge fan of** - ...的狂热粉丝

⇒ 例：I was an avid fan of sharing toys with my friends when I was a kid.

- **obsessed with / have a soft spot for** - 对...着迷 / 对...情有独钟

⇒ 例：I always had a soft spot for stray animals.

- **I wouldn't say I'm quite into...** - 我不会说我很喜欢... (委婉表达不喜欢)

⇒ 例：I wouldn't say I'm quite into sharing my ambitions with others.

- **teeming with people** - 摩肩接踵的 / 人头攒动的 (高级同义词：crowded)

⇒ 例：There are plenty of places teeming with people here in China.

- **find [something] annoying** - 觉得某物很烦人

⇒ 例：Personally speaking, I find those places teeming with people really annoying.

💡 精髓解释

想要分数高，不仅要会说“好”，还要会换着花样说“怎么个好法”。同样是喜欢，可以说是“死忠粉”，也可以说是“情有独钟”。

总述与举例 (Generalization)

🧠 课堂内容还原

- 应对复杂问题时，第一句使用“总述句 (Generalization)”是非常百搭的逻辑起手式。先说“有很多...”，再具体展开。

- ⚠️ **细节陷阱 (Detail Trap)**：举例时不要傻傻地罗列具体专有名词（如巧克力的牌子），很容易卡壳。遇到罗列，多用模糊化表达代替 “such as”。

🌱 必备语块

- **plenty of / loads of / tons of** - 许多... (口语化高频词)

⇒ 例: *There are loads of different public places here in China.*

- **a wide range of / a vast array of / a great variety of** - 种类繁多、琳琅满目

⇒ 例: *There's a vast array of items in the shop.*

- **... or something like that / and stuff** - ...诸如此类的东西 (模糊举例收尾)

⇒ 例: *Maybe I'll choose something like a pencil case, or something like that.*

💡 精髓解释

回答问题就像漏斗，先说一个大范围 (总述)，然后慢慢收缩到某一个具体的点 (举例)。举例时别给自己挖坑，想不到具体的就说“类似这种东西”。

高分语法结构 (Emphasis & Grammar)

🗣️ 课堂内容还原

- 掌握 **Wh-名词从句作主语的强调句型 (A is B)**：将普通陈述句变为疑问词引导的从句作为主语(A)，后面接表语(B)。

- ⚠️ 疑问句原理：提问主语时不需要倒装 (如 Who likes flowers?)，提问宾语/状语等需要加助动词倒装 (如 What do you do with flowers?)。而在 Wh-从句作主语时，直接用陈述语序即可 (如 how old you are)。

🧩 必备语块

- **What's interesting is that...** - 有趣的是... (A is B 结构)

⇒ 例: *What's interesting about our school is that it has two playgrounds.*

- **What's dangerous about [X] is that...** - [X] 危险的地方在于...

⇒ 例: *What's dangerous about this place is that lots of people have drowned there.*

- **And you know what, actually...** - 你知道吗，其实... (引出令人意外或强调的信息)

⇒ 例: *And you know what, actually my classmates are really friendly.*

	💡 精髓解释 把最普通的话“绕着弯子”说。不说 "This place is dangerous because...", 而说 "What's dangerous about this place is that...", 直接向考官展示你驾驭复杂从句的能力。
A+D 答题逻辑链 (Logic Chain)	🧠 课堂内容还原 • 雅思口语评判的关键不是知识储备，而是“流利度与连贯性(逻辑)”。即使被打断也绝不扣分。 • 应对 Part 3 终极黄金公式：Stalling (评价+总述原因) → Answer (直面回答) → Detail (个人感受/细节)。 • 老师全息拆解案例（以“是否去过拥挤的地方”为例）： 1. 评价问题 (Comment): That's an interesting question... 2. 总述原因 (Reason): ...cuz you know there are a huge number of crowded places here in China. 3. 回答主体 (Answer): So of course I've been to lots of those sort of places. 4. 细节感受 (Detail): Personally speaking, I find them really annoying. 💡 精髓解释 不要机械地背答案。把回答当成组装乐高：第一块拼拖延套话，第二块拼总述原因，第三块给出你的选择，第四块谈谈你的心情。
课后提分学习法 (Study Methodology)	🧠 课堂内容还原 • 拒绝死记硬背，成为 Active Learner。核心理念是：Study smarter, not harder. • 掌握单词深层含义的三维立体法则 (3C 原则)： 1. Collocation (词伙搭配)：词与词之间的联系。 2. Context (语境)：句子与句子之间的联系。 3. Connotation (言外之意)：语言背后的文化与态度。 • 逐字稿口语提升法：针对 Part 2 和 Part 3 必备。 - S1 (分析回答逻辑): 拆解题目，想好逻辑链条 (如 A+D)。 - S2 (写出回答框架): 列出大纲节点。

- **S3 (补充回答内容):** 利用词典/AI补充高级语块 (过 RUA)。
- **S4 (口头复述):** 看着框架口头顺逻辑，不可照读全稿。
- **S5 (脱稿录音):** 录音并回放，进行中断和错题分析，揪出卡亮点。

 精髓解释

逐字稿分析难题，理清头绪，学习新表达。之后再分析录音，识别语流问题，闭环提升口语各指标。
