

IELTS with Kee - Mar 9

 考点线索 (Cues)	 笔记与纪要全解析 (Notes)
[Narration Strategy] 故事叙述总分逻辑	 课堂内容还原 (Class Content) • 总述 (General facts)：一开始不要一股脑把细节全倒出来，听众会觉得“重点在哪里”。先用一句话和形容词把人勾住：“总之，这部剧它就是一帮学生和一个邪恶校长之间的一场战争”。 - 核心句式：So basically the story is mainly about... - 背景介绍：交代 When/Where/Who。例如：It's set in a high school in a pseudo-utopian era. (发生在一个虚拟乌托邦时代的高中)。 - 环境烘托：The school is secluded and locked, where students are trapped. (偏僻、被封锁、学生被困其中)。 • 分述 (Specifics)：通过“聚光灯”打在最有趣的点上（如 characters）。 - 主角 (Protagonist)：Makoto Naegi, also known as (AKA) the "Ultimate Lucky Student"。原因：He has a superpower，可以操纵概率，make things always happen in a lucky way。性格上：To begin with, he's a kind as well as optimistic person. Although he's just an ordinary guy, still he's really reliable. - 反派 (Antagonist)：Monokuma, 是一只 evil robotic bear，也是 headmaster。幕后黑手：Junko Enoshima, the true mastermind behind the whole scheme。  救命拖延/过渡词 (Stalling) • One thing I really like about this anime is the characters. - [引出具体细节] • Speaking of the protagonist... - [顺滑引出主角] • Other than that, in terms of the antagonist... - [无缝切换到反派] • To be specific... / To put it at length... - [具体来讲/详细来说] • Spoiler alert - [剧透预警！语调往上扬，增加戏剧真实感]  时态精髓解释 (Tense Insight) 考官问 When was the last time you watched an anime? 必须用过去时体现你对时态的掌控力；但如果你在具体描述剧情本身的情节时，使用一般现在时是完全 OK 的。
[Lexical Resource] 高阶故事修饰词汇	 课堂内容还原 (Class Content) 老师强调，评价故事不要只会用 interesting，要用有画面感的高级词： • Engaging：非常有代入感，“让人感觉到目不暇接，一个事件发生之后，另外一个事情马上发生”。 • Convuluted：极其复杂烧脑，“就像一根毛线团一样缠在一起完全解不开... 或者数据线缠在一起找不到头”，比 difficult 高级很多。

	• Desperation vs. Despair : Despair 是一种 passive state of deep gloom (单纯的概念上的、静态的完全绝望) ; 而 Desperation 是一种 active 的绝望, 是“被逼到绝境之后非常需要去做出改变的挣扎”。 • 口语戏剧张力: 描述剧情时可以加入主观情感渲染。这种措辞在口语表达中极具冲击力和戏剧感。
[Pronunciation] 过去式 -ed 发音法则	 课堂内容还原 (Class Content) • 核心口诀: “清清浊浊”。动词过去式不要把 ED 读得特别重 ! • 轻音加轻音 (清辅音): 词尾是清辅音, 后面 ED 发 /t/。例如: trapped 读作 /træpt/。 • 浊音加浊音 (浊辅音/元音): 词尾是浊音, 后面 ED 发 /d/。例如: opened 发音以 /d/ 结尾。 • t/d 结尾发 /ɪd/: 只有以 T 或 D 结尾的动词, 过去式才发 /ɪd/。例如: wanted 读作 /'wɒntɪd/ , executed 读作 /'eksɪkjʊtɪd/。
[Topic Expansion] 时间精准表达法	 课堂内容还原 (Class Content) • 传统读表法: 把表盘 (clock face) 劈成两半, 看分针 (minute hand)。左边叫 to (差多少分), 右边叫 past (过了多少分) 。 - 分针指 12 : o'clock 。 - 分针指 3 : quarter past (一刻钟) 。 - 分针指 9 : quarter to (差一刻钟) 。 • 12点的特殊表达: - 凌晨 12:00 = 12:00 a.m. 或 midnight 。 - 中午 12:00 = 12:00 p.m. 或 noon / mid-day 。 - 晚上 11:59 = one to midnight 或 one to one a.m. 。 • 简单读表法: 直接读数字, 如 5:30 = five thirty 。
[Coherence Strategy] 信息筛选与逻辑排序 (Stanley Park 案例)	 课堂内容还原 (Class Content) • 相关性法则 (Relevance): relevant 意为有用的、相关的。做地点 Presentation 时, 不要使用你写的所有笔记, 必须选择与主旨相关的信息 (choose information that is connected to the main point) 。 • 信息剔除 (What to discard): -  “很多鸟住在这里, 但有些只住一年的一部分时间” (some live there only part of the year) : 极其不重要, 直接扔掉。 -  “1938年停止租借泳衣”: 毫无关联的历史细节, 直接剔除。 • 信息排序与递进 (Stanley Park 架构): - 第一层: Background (是什么/在哪里/有多久) - 第二层: Management & Transition (管理情况, 无缝过渡到活动) - 第三层: Activities (核心: 能在里面做什么)  精髓解释 (Insight) 地点描述的秘诀在于“逻辑剥洋葱”。正如 Stanley Park 的例子, 从客观的地理与历史 (Background), 自然过渡到政府的管理 (Management), 再顺理成章引出游客的体验 (Activities)。剔除掉“鸟类迁徙”或“1938年租泳衣”这种无关痛痒的杂音, 你的演讲才会像教科书一样清晰有力。

[Topic Practice] 地点实战：熊猫基地	 课堂内容还原 (Class Content) • 实战案例：都江堰熊猫基地 (Dujiangyan Panda Base) - 基本信息：Also known as Qingchengshan Base. 位于成都西北约 60 公里的卫星城 (satellite city) 都江堰。 - 核心功能：Focuses on rescue and disease control rather than just breeding. (侧重于救援与疾病控制，而不是纯粹的繁育，相当于大熊猫的医院)。占地 51 公顷，提供完美的 natural environment。 - 正面评价 (Positives)：The scenery is breathtaking (风景美不胜收)。四周是 bamboo forests and fresh mountain air。可以学习保护知识 (conservation) 甚至志愿清理圈舍 (volunteer to clean enclosures)。此外，它比成都基地更安静：quieter... without too many crowds (人少很多)。 - 负面评价 (Negatives)：Expensive to travel 因为是 a long drive from the city center (离市中心车程长)。天气经常是 foggy or rainy (阴雨连绵或有雾)，导致 walking around a bit difficult。 - 总结推荐：Highly recommend going if you want a more peaceful and authentic experience (想要宁静和纯正的体验，强烈推荐)。
---------------------------------------	--

Plan for Presentation	Information
1. Introduction and general facts Name of place? / Country? / Location?	* It is called the Dujiangyan Panda Base (also known as the Qingchengshan Base). * It is located in China, specifically in the Sichuan province. * It is about 60 kilometers northwest of Chengdu city, near the beautiful Qingcheng Mountain.
2. Facts How old? / Who made it? / Other events?	* It was opened in 2013 by the <i>China Conservation and Research Center for the Giant Panda</i>. * The base focuses on rescue and disease control rather than just breeding. * It covers an area of about 51 hectares, which is perfect for pandas to live in a natural environment.
3. Opinion (positives) Interesting? / Beautiful? / Why visit?	* The scenery is breathtaking because it is surrounded by bamboo forests and fresh mountain air. * It is very educational because you can learn about panda conservation and even volunteer to clean enclosures. * It is quieter than the Chengdu Research Base, so you can see the pandas without too many crowds.
4. Opinion (negatives) Expensive? / Too crowded? / Problems?	* It can be expensive to travel there because it is a long drive from the city center. * The weather is often foggy or rainy, which might make walking around a bit difficult.

5. Summary

Good? Go or not?

* Overall, it is an **excellent** place for nature lovers and panda fans.

* I would **highly recommend** going if you want a more **peaceful and authentic experience** with these amazing animals.
