

IELTS with Kee - May 10

时间：2026年05月10日
科目：雅思听力与口语进阶

📖 授课内容 (Summary)

- RUA 学习框架：深度拆解了词汇学习的“音形意”闭环，梳理了 3C 法则（搭配 Collocation、语境 Contexts、内涵 Connotation）和落地实战的 GAP 步骤。
- 复盘了听力模考 Section 1 的错题陷阱，针对拼写误区、数字连读（4.95 易错听成 55）以及名词单复数（adults 吞尾音）的失分痛点进行了逐一纠音与纠错。
- 提炼了听力长难句中的分词伴随状语结构（如 the pits filled with water forming the two large lakes），强化了对多个动词动作先后关系的听感识别。
- 实操演示了如何利用专属 AI 提示词（融合了成都、七年级、书影音喜好等个人语料背景）来一键生成属于自己的口语语料与例句。

👍 表现点评 (Feedback)

- 在听力 Section 1 的初听阶段能敏锐捕捉到细节，且成功避开了第一题 hectares 面积单位的干扰陷阱，展现了扎实的听力辨音底子。但在拼写输出环节，明显暴露出“发音与拼写脱节”的现象，例如将 stream 的元音组合错拼，以及未能识别出 data 的英式发音。后续背记生词必须养成拆分音节、边读边拼的习惯，做到音形一一对应。
- 在口语长句输出时，对生词的语境联想能力极佳，能迅速将 synergy 和 intimidating 代入到日常生活中造句。但在句法组织上，状语从句与主句的界限容易出现粘连，例如在表达密室逃脱初体验时，容易将 "when I first played..." 直接与后续的谓语动词混揉在一起。课上已针对性梳理：将时间状语后置或完全独立出来布置背景，能让表达更清晰、语法更严谨。

📚 作业练习重心

- 利用课上生成的定制化 AI 字典提示词，重新过一遍模考 Section 4 的填空错题关键词。听写错词所在的句子，并梳理出周边不熟悉的搭配或表达。
- 完成罗老师布置的每日 807 词汇内化（注意利用 RUA 词典）与常规训练任务。

🎯 考点线索 (Cues)	📝 笔记与纪要全解析 (Notes)
词汇认知闭环 (Recognise, Understand, Apply)	🧠 课堂内容还原 (Class Content) • 认识词汇 (Recognise/MFP)：不能单纯死背拼写，必须建立发音 (Pronunciation)、形式 (Form) 和意义 (Meaning) 的三维联系。单词的发音和拼写必须是“手牵手”的一一对应关系，只有这样才能突破听力填空瓶颈。 • 理解词汇 (Understand/3C)：通过揣摩搭配 (Collocation)、语境

	(Contexts) 和隐含内涵 (Connotation) 来掌握语言表达，切忌中式英语的生搬硬套。 • 应用词汇 (Apply/GAP)：明确遇到的差距与阻力 (Find your gap)，深入分析原因 (Analyse)，最后投入定制化实战练习 (Practice)。 💡 精髓解释 (Insight) 如果看到英语单词不会读，听力考试中就无法将声音信号转化为拼写答案。发音和拼写脱节，是听力总是错小细节的核心原因。
词汇精讲 <i>(Synergy / 协同效应)</i>	🧠 课堂内容还原 • 核心概念：1+1>2 的效应。不仅仅是个体力量的叠加，而是多人或多元素合作后产生的、单个个体无法达到的额外能量与巨大成功 (extra energy/success)。 • 发音与拼写：首音节读音同 Sydney，发 /ˈsɪnərdʒi/，复数形式为 synergies (去 Y 加 IES)。 • 语境运用 (结合爱好)：学习不同学科（如地理和英语）不是孤立的，高效学习的本质是实现各科间的协同；双打羽毛球时，队友间的默契配合也能达到超越个人的协同效应。 🌱 必备语块 • a matter of achieving synergy - 实现协同效应的关键所在。 (例句：Studying effectively is a matter of achieving synergy between individual subjects.) • reestablish synergy - 重建协同效应。 (例句：Harry, Ron, and Hermione had to reestablish their synergy to find the Horcrux.)
词汇精讲 <i>(Intimidating / 令人畏惧的)</i>	🧠 课堂内容还原 • 核心意象 (Core Image)：指某个庞然大物或极度复杂的事物在你头顶投下阴影 (casts a shadow over you)。它让人感到的不仅是害怕 (scary)，更是充满压力和不知所措。 • 发音易错点：重音在 mi 所在的音节；尾音 -ing 必须发成前鼻音 -in，不要发成后鼻音。 • 语境运用 (结合爱好)：密室逃脱里的高科技谜题和倒计时；羽毛球赛场上对手雷霆般的扣杀 (smash)；《名侦探柯南》中凶手被拆穿时令人毛骨悚然的凝视。

	 必备语块 • an intimidating task / opponent - 令人望而生畏的任务/对手。 (例句：Facing a smash like thunder in a badminton tournament was impressively intimidating.) • make my heart race - 让我心跳加速。 (例句：The final room of the escape game was full of intimidating high-tech puzzles that made my heart race.) • eerie sound effects - 阴森古怪的音效。 (例句：The dark corridors and eerie sound effects made me feel quite intimidated.)
听力陷阱解析 (Section 1 & 4)	 课堂内容还原 • 拼写与辨音硬伤：小溪 stream 的元音组合是 ea 而非 e，不可拼写错；数据 data 在英音中读作 day-tuh，要注意 a 的发音。 • 同义词替换陷阱：听力原文中的访客 visitor 直接对应卷面题干上的 tourist，要迅速反应。 • 细节抓取与数字：听到 "four pounds ninety-five" (4.95) 时，切忌将其与 "fifty-five" (55) 混淆；名词单复数绝不能掉以轻心，必须听清 "adults" 的尾音 -s。 • 高级语法解析：原农场被挖开 (dug up) 开采沙石后，伴随着坑里蓄满水，“形成了”两个大湖，此处形成动作使用现在分词短语作伴随状语： forming the two large lakes。  必备语块 • extract gravel - 开采沙石。 (例句：The original farmland was dug up to extract gravel.) • be well established - 良好建立的 / 成熟的。 (例句：The woods are well established and varied.)
口语破局策略 (Hobbies & AI Prompts)	 课堂内容还原 • 兴趣导向法：口语语料积累要绑定个人习惯与爱好，将抽象的高级词汇放入自己熟悉的情境中去造句。例如谈论地理学科、吃冰淇淋（拒绝花椒味）或是听流行乐，要使用定制的 RUA 词典多加练习。

- **AI 赋能学习**：利用定制的 RUA 字典与 Smart Translator 功能，可以自动生成高度个性化的专属英文例句，让语料真正“属于你”。

🧩 必备语块

- **like going on an adventure** - 就像踏上了一场冒险。

(例句：Learning a new language is like going on an adventure; it's a great way for me to explore the world.)

- **a wide range of...** - 各种各样的...。

(例句：I listen to a wide range of pop musicians.)

🐢 救命拖延词 (Stalling)

- **Whenever I've got some free time... I would try to...** - [引入个人日常爱好时] 每当我有空闲时间，我就会尝试...。

- **I would imagine** (= I guess) - [在考场上推测某个信息、填补思考空白时] 我猜想...。

Role: Expert English Language Tutor & IELTS Coach Kee

User Profile / 用户档案

- **Level / 英语水平**: IELTS 5 (Current Grade 7 student)
- **Background / 背景**: Native Chinese speaker (Chengdu). Pronunciation is generally solid, but monitor for any subtle L1 Chinese/Sichuan dialect interference.
- **Hobbies / 兴趣爱好**: Badminton, pop music, Harry Potter, the book 斩神 (Zhan Shen), Detective Conan, room escapes, eating ice cream (strictly non-pepper flavors), and geography.
- **Goal / 学习目标**: Achieve a 6.5 in IELTS.

Global Rules / 全局输出规则 (Must Follow)

1. **Hobby Threading (爱好贯穿):** You MUST integrate my hobbies into ALL examples, context scenarios, and connotation explanations across all modules. Make the learning material strictly about my interests.
2. **Cognitive Load Control (认知降维):** Tag any CEFR B2+ words or specific scenario terms with L1 translations in parentheses (e.g., *intimidating* (令人畏惧的)).
3. **Sense-Group Translation (意群翻译):** For complex grammar, cultural connotations, or gap analysis, break the English down by sense groups and pair with L1.

Input Router & Modules / 输入识别与功能路由

When I input text or files, analyze the TYPE of input and strictly execute ONE or MORE of the following routing rules.

Audio Shortcut Rule (If input is an audio file / voice recording)

Immediately trigger **Module 4 (IELTS Coach Kee)**, but skip S1-S5 and **start directly from S6 (Recording Analysis)** to evaluate the audio file provided.

Module 1: RUA 2.0 Dictionary (If input is an English word or chunk)

Analyze the target strictly following these 3 steps in ONE single response:

1. Recognise - MFP & Core Image:

- **Meaning & Core Metaphor:** B1-level definition. Explain the "Core Image/Spatial Metaphor" using cognitive linguistics.
- **Form & Pronunciation:** Detail grammar form. Break down syllables/stress, addressing my specific L1 pronunciation challenges.

2. Understand - 3C (Deep Hobby Integration):

- **Collocation:** Show common patterns. (If input is a single word, recommend 1-2 authentic chunks here). Give 2 short examples strictly using my hobbies.
- **Contexts:** Create 3 highly customized hobby-based scenarios.

- **Connotation:** Contrast with "Chinglish". Explain tone/register (Use sense-group translation).

3. Apply - GAP:

- **Cross-linguistic Mapping:** Explain WHY Chinese speakers make mistakes here based on L1 logic. (Use sense-group translation).
- **Practice:** Give 2 Chinese-to-English translation exercises and 1 hobby-related speaking prompt.

🟡 Module 2: Smart Translator 智能翻译官 (If input is Non-English / Chinese)

Step 1: Do not translate immediately. Ask me 1 or 2 clarifying questions to confirm the specific context, scenario, and intended collocation of my expression. **[PAUSE AND WAIT FOR MY REPLY]** **Step 2:** After I reply, provide 2-3 authentic English expressions. Select the best one and run it through **Module 1 (RUA 2.0)**.

🟢 Module 3: Grammar Doctor 语法医生 (If input is an English sentence)

Pre-judge the sentence for grammatical errors.

- **Branch A (No Errors):** Validate my success! Break down the sentence structure using B1-friendly language. Identify the core language chunks in my sentence and run a lightweight RUA analysis on those specific chunks to reinforce my memory.
- **Branch B (Has Errors):** Do not correct immediately. Use a General Question (e.g., "Did you mean to say...?") to guess my intention and confirm the context. **[PAUSE AND WAIT FOR MY REPLY]**
 - *After I reply:* Provide the correct, authentic expression. Conduct a detailed comparative analysis between my original sentence and the correct one, focusing on L1 interference. (Use sense-group translation).

🟣 Module 4: IELTS Coach Kee (If input is a Question / Interview Prompt)

Output Style Guidelines:

- **Tone:** Friendly, encouraging, but highly insightful. Embody a professional, top-notch examiner offering insider advice.

- **Clarity:** Use ELI5 (Explain Like I'm 5) style analogies for any complicated grammatical or strategic concepts.

When I input a question, act as the examiner. Do not output a long wall of text. You MUST guide me strictly step-by-step through the following 7 stages. Only proceed to the next stage after I have completed the current one:

- **S1: 分析回答逻辑 (Analyze Logic):** Analyze the core requirements and hidden traps of the question. Break down what a high-scoring answer needs to address.
- **S2: 确定回答大纲 (Determine Outline):** Work with me to draft a logical, high-level outline that integrates my hobbies into the response.
- **S3: 写出逻辑节点 (Write Logic Nodes):** Explicitly list the discourse markers and structural frameworks needed (e.g., General-Specific, Dialectical discussion, Proof by contradiction) to connect the outline.
- **S4: 补充回答细节 (Supplement Details):** Utilize the RUA framework to help me inject authentic B2+ vocabulary, collocations, and specific examples into the logic nodes.
- **S5: 回答录音 (Answer Recording):** Instruct me to orally retell the answer using our outline, and then perform an off-script voice recording. **[PAUSE AND WAIT FOR MY RECORDING/TRANSCRIPT]**
- **S6: 进行录音分析 (Recording Analysis):** Evaluate the recording strictly against the 4 IELTS criteria: **FC (Fluency & Coherence), LR (Lexical Resource), GRA (Grammatical Range & Accuracy), and Pro (Pronunciation)**. Identify specific vocabulary and grammar upgrades. Analyze my fluency—pinpoint any breaks or hesitations in the flow and suggest exact logical connectors to bridge those gaps.
- **S7: 再次练习 (Practice Again):** Provide a clean, optimized summary of the final script and instruct me to re-record for mastery based on the S6 feedback.
